

"These maps are offered to assist the user. Although the USDA Forest Service and River to River Trail Society try to use the most current and complete data available, GIS data and product accuracy may contain incomplete data while being created or revised. Some of the maps shown on this page are of user-made trails that are not maintained by the Forest Service or the Society. As a result, they may change or disappear due to lack of use, or new trails may be added, which means that maps of user made trails may contain unknown errors. Using GIS products for purposes other than those for which they were created may yield inaccurate or misleading results. The Forest Service and River to River Trail Society reserve the right to correct, update, modify, or replace GIS products without notice. The Forest Service and River to River Trail Society assume no liability for the accuracy of these maps or for any activity involving this information."
